- Chris reviewed Public Meeting #2 Questionnaire, Survey, and Concept results
- Steering Committee talked through Concept Results and moving forward:
- South Site:
 - Move forward with showing all three options S1, S2, and S3 due to results being too close.
 - Create further 3d conceptual graphics of South concepts in order to more clearly show relationship of site to neighborhood and Mission gateway.
 - Discussed zoning issues with “renovations”, Noise/Light ordinances don’t apply to renovations (could be future issue)
- Transit:
 - T1 was the overwhelming favorite; will add additional parking to concept.
 - Initial Cost estimate to be created for Mobility Hub option T1.

- North Site:
 - N3 concept was overwhelming favorite.
 - Further graphics and renderings will be provided for Public Meeting #3 on July 10.
- Initial Draft outline:
 - Draft outline was shared with Steering Committee
 - Why/how both sites were chosen for Project?
 - How do we write the draft plan so that houses in nearby neighborhoods don't lose value in the meantime?
- Next meeting is Public Meeting #3 at RP Community Center at 6pm
